

## Technical Absorbents Limited SAF® Product Range

Long staple products (for dry-laid nonwovens and yarns)

Type 102/52/10	<ul style="list-style-type: none"> <li>• Standard fibre grade for carded nonwovens and yarns.</li> <li>• Offers a good balance of gel quality and absorbency properties, particularly under load.</li> <li>• Ideal for many applications.</li> </ul>
Type 102/80/10	<ul style="list-style-type: none"> <li>• Standard fibre grade for semi worsted conversion processes.</li> <li>• Offers a good balance of gel quality and absorbency properties, particularly under load.</li> <li>• Ideal for many applications</li> </ul>
Type 112/52/10	<ul style="list-style-type: none"> <li>• Low wet-integrity fibre grade.</li> <li>• Higher free swell than type 102.</li> <li>• Useful when absorbing water or solutions with a high salt content.</li> </ul>
Type 122/52/10	<ul style="list-style-type: none"> <li>• High wet-integrity fibre grade.</li> <li>• Increased wet mechanical strength.</li> <li>• Useful when absorbing water or solutions with a low salt content.</li> </ul>
Type 142/52/10	<ul style="list-style-type: none"> <li>• High absorbency under load performance grade for carded nonwovens and yarns.</li> <li>• Ideal for many applications.</li> </ul>

### Code explanation

E.g. 102/52/10	<p>102 = product ref 52 = staple length (mm) 10 = dtex</p>
----------------	--
