SAFETY DATA SHEET: May be used to comply with OSHA’s Hazard Communication Standard, 29 CFR 1910.1200. Standard must be consulted for specific requirements.

EFFECTIVE DATE: April 15, 2015

SECTION I CHEMICAL PRODUCT & SUPPLIER’S IDENTIFICATION

Product Name: MediSAP® 715
Chemical Name: Super Absorbent Polymer
Sodium Polyacrylate, Crosslinked

M² Polymer Technologies, Inc.
P.O. Box 365
West Dundee, IL 60118
Telephone Number for Information: 847/836-1393

SECTION II HAZARD IDENTIFICATION

Component Information/Information on Non-Hazardous Components
The components of this product are not regulated as hazardous under 29 CFR and 49 CFR. However, the manufacturer recognizes the potential for respiratory tract irritation as a result of inhalation of this material as a respirable dust. See Sections 8, 11, 14 and 15 for further information.

Emergency Overview
Sodium Polyacrylate, Cross-linked is a white, granular, odorless polymer that forms a gel-like material with water. It is insoluble in water and causes slippery conditions when wet. Although not regulated as a hazardous material, the respirable dust is a potential respiratory tract irritant.

Potential Health Effects - Eyes
Dust may cause burning, drying, itching and other discomfort resulting in reddening of the eyes.

Potential Health Effects - Skin
Dust exposure, such as in manufacturing, may aggravate existing skin conditions due to drying.

Potential Health Effects - Ingestion
Not a likely route of entry. Tests show that super absorbent polymers are non-toxic if ingested. However, as in the instance of any non-food consumption, seek medical attention in the event of any adverse symptoms.

Potential Health Effects - Inhalation
Respirable dust exposure may cause respiratory tract & lung irritation and may aggravate existing respiratory conditions.

HMIS Ratings: Health 1 Fire 1 Reactivity 0
Hazard Scale: 0=Minimal 1=Slight 2=Moderate 3=Serious 4=Severe *=Chronic Hazard

SECTION IV FIRST AID MEASURES

First Aid - Eyes
Immediately flush eyes with water for at least 15 minutes.

First Aid - Skin
Remove polyacrylate absorbent dust from skin using soap and water.

First Aid - Ingestion
Non-toxic. However, if adverse symptoms appear, seek medical attention.

First Aid - Inhalation
If inhaled, move to source of fresh air. Seek medical attention if symptoms persist.
SECTION V  FIRE FIGHTING MEASURES

General Fire Hazards
No recognized fire hazards associated with the product.

- Upper Flammable Limit (UFL): NE
- Lower Flammable Limit (LFL): NE
- Method Used: None
- Flash Point: None
- Flammability Classification: None

Hazardous Combustion Products
None known.

Extinguishing Media
Water. Water spray. Dry chemical, foam, carbon dioxide. Slippery conditions are created if spilled product comes in contact with water.

Fire Fighting Equipment/Instructions
Firefighters should wear full protective clothing including self contained breathing apparatus. In temperatures above 200°C thermal decomposition can give toxic products and Carbon Monoxide (CO).

NFPA Ratings: Health=1 Fire=1 Reactivity=0
Hazard Scale: 0=Minimal 1=Slight 2=Moderate 3=Serious 4=Severe

SECTION VI  ACCIDENTAL RELEASE MEASURES

Containment Procedures
No special precautions required. Sweep or vacuum material when possible and shovel into a waste container.

Clean Up Procedures
Use caution if product comes in contact with water as slippery conditions may result. Waste residual may be flushed down a drain with water for normal wastewater treatment. This is a non-hazardous waste suitable for disposal in any approved solid waste landfill.

Evacuation Procedures
None required.

Special Procedures
Avoid respirable dust. Wear a nuisance style dust mask if dusty conditions occur.

SECTION VII  HANDLING AND STORAGE

Handling Procedures
Handle as an eye and respiratory tract irritant.

Storage Procedures
Store in a dry, closed container.

SECTION VIII  EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Guidelines

Occupational Exposure Limits
For respirable dust (< 10 µm) limit is 0.05 mg/m³.

Engineering Controls
Provide local exhaust ventilation if dusting occurs.

Personal Protective Equipment – Eyes & Face
Safety glasses with side shields or goggles.

Personal Protective Equipment – Skin
Use impervious gloves when handling the product in a manufacturing environment.

Personal Protective Equipment – Respiratory
Wear a nuisance style dust mask for mild dusty conditions where concentration of total dust is more than 0.05 mg/m³.

Personal Protective Equipment – General
Follow normal safety precautions and maintain good housekeeping. Wash thoroughly after handling.

SECTION X  CHEMICAL STABILITY & REACTIVITY INFORMATION

Chemical Stability
Product is stable. Hazardous polymerization does not occur.

Chemical Stability: Conditions to Avoid
Strong oxidizing agents which may cause exothermic reactions. Strong acids.

Incompatibility
None

Hazardous Decomposition
Thermal decomposition at temperatures above 200°C may produce carbon oxides (COx) and other toxic byproducts.

Hazardous Polymerization
None

SECTION XI  TOXICOLOGICAL INFORMATION

General Product Information
Acute inhalation of respirable dust may cause irritation of upper respiratory tract and lungs.

Acute Toxicity – LD₅₀/LC₅₀
Oral: LD₅₀/oral/rat > 1600 mg/kg, Mouse LD₅₀ > 3200 mg/kg
Dermal: Not irritating (Human, Rabbit)
Inhalation: The product is not expected to be toxic by inhalation.

Irritation
Skin: Not irritating.
Eyes: Not irritating.

Carcinogenicity
None

Chronic Toxicity
No chronic effects.

Mutagenicity
Not mutagenic. AMES test is negative using Salmonella typhimurium (TA98, TA100, TA1535 and TA1537) and E-coli (WP2uvrA)

SECTION XII  ECOLOGICAL INFORMATION

Environmental Fate
Super absorbent polymers are largely inert in aerobic and anaerobic conditions and not readily biodegradable. Does not bioaccumulate. They are immobile in landfills and soils systems with the mobile fraction showing biodegradability. They are also compatible with incineration of municipal solid waste. Incidental drain disposal of small quantities of polyacrylate absorbents will not affect the performance of wastewater treatment systems.

SECTION XIII  DISPOSAL CONSIDERATIONS

US EPA Waste Number & Descriptions
General Product Information
Product is non-hazardous waste material suitable for approved solid waste landfills.

Component Waste Numbers
No EPA Waste Numbers are applicable for this product’s components

Disposal Instructions
Dispose of in accordance with Local, State and Federal regulations.
SECTION XIV TRANSPORTATION INFORMATION

International Transportation Regulations
The product is not transport regulated.
Not classified as dangerous according to DOT or IMO/IMDG or ICAO/IATA regulations.

SECTION XV REGULATORY INFORMATION

U.S. SARA Reporting Requirements: None.
RCRA Status: Not RCRA hazardous.
General Product Information
The product is not Federally regulated as a hazardous material.
International Inventories:
USA (TSCA): All components of this product are either listed on the inventory or are exempt from listing.
European Union (REACH): All components of this product have been registered or pre-registered with the European
Chemicals Agency or are exempt from registration.
Japan (ENCS): All components of this product are either listed on the inventory or are exempt from listing.

SECTION XVI OTHER INFORMATION

Other Information
The information presented in this document is presented in good faith and is believed to be accurate as to the effective
date given. However, no warranty, expressed or implied is given. It is the buy’s responsibility to ensure that its activities
comply with Federal, State or provincial and local laws.
